

Male Adapters / Probes

Male Adapters are used in medical facilities to connect the medical gas equipment to the gas outlets.

Silbermann manufactures different types of probes/male adapters, such as : Diamond, Puritan Bennett, DISS, NIST, ENV 737-6, DIN 13260-2 & BS 5682, Chemetron.

All probes are with 1/8" NPT connection (DISS probes also available with barb connection).
