

Emergency Portable Medical Oxygen Pressure Regulator with audio & visual Indicator

This new Oxygen regulator provides a visual & audio alert of low Oxygen pressure. It provides the maintenance & medical staff with the following benefits:

- Maintenance technicians - an easy identification & location of oxygen cylinders that require re-fill. In this manner, technicians can provide reliable and safe service to the medical staff in any clinical situation where Oxygen is needed from portable cylinders
- Medical staff - an avoidance of critical medical incidents that may be caused by low Oxygen pressure in cylinders without an early alarm.

Features & Benefits

- LED Indicators for Oxygen pressure:
 - Green - Oxygen Pressure Normal
 - Red - Oxygen pressure low*
- Audio alarm for low Oxygen pressure
- Test Button for leds & audio alarm
- LED Indicator (yellow) for battery charge**
- Inlet Connection: Pin indexed yoke or 3/4G
- Inlet Pressure: Up to 200 Bar
- Flow Selector:
 - 0.5, 1, 1.5, 2, 3, 4, 6, 8, 10, 15, 25 LPM
- Gauge:
 - 0-315 Bar - Standard, 0-4000 PSI - Optional
 - Gauge protection rubber - optional
- Material of Construction
 - Body: Nickle plated Brass

Applicable Standards:

- EN ISO 10524-1 (Pressure regulators with flow metering device).
- CGA E7 (American Standard)

Silbermann's Quality Management System:

- EN ISO 13485-2016

Distributed By:

* Alarm pressure set to 500 PSI (34 bars)- changeable upon order ± 100 PSI (± 6.8 bars)

** Long battery life lasting for several years.
