

Ceiling Mounted Flexible Hose

Ceiling Mounted Flexible Hose are used for delivering gas through a retractable hose in large rooms like OT's.

On one end, this hose assembly is connected to the ceiling gas outlet with a DISS/Nist fitting that is suitable for the required gas type.

On the other end, it is connected to a portable gas outlet that has the same gas coding as the ceiling outlet.

A pulley (key back) is attached to the hose to easily adjust its height according to the users needs.

Features

- A quick connect outlet with flexibility in use - you can pull the hose down with its connecting adapter and then release it, to move back to its original place.
- Cost-effective - alternative for using pendants in OTs.
- Fits for rooms where it is difficult to install outlets in the side walls.

Medical Gas System Standards:

NFPA 99, EN ISO 7396-1 & GO-1, HTM 02-01 requirements

Applicable Standards:

NFPA 99, ISO 9170-1, ISO 5359

Silbermann's Quality Management System:

EN ISO 13485-2016, ISO 9001-2015

* Other types of portable outlets are available by customers' request

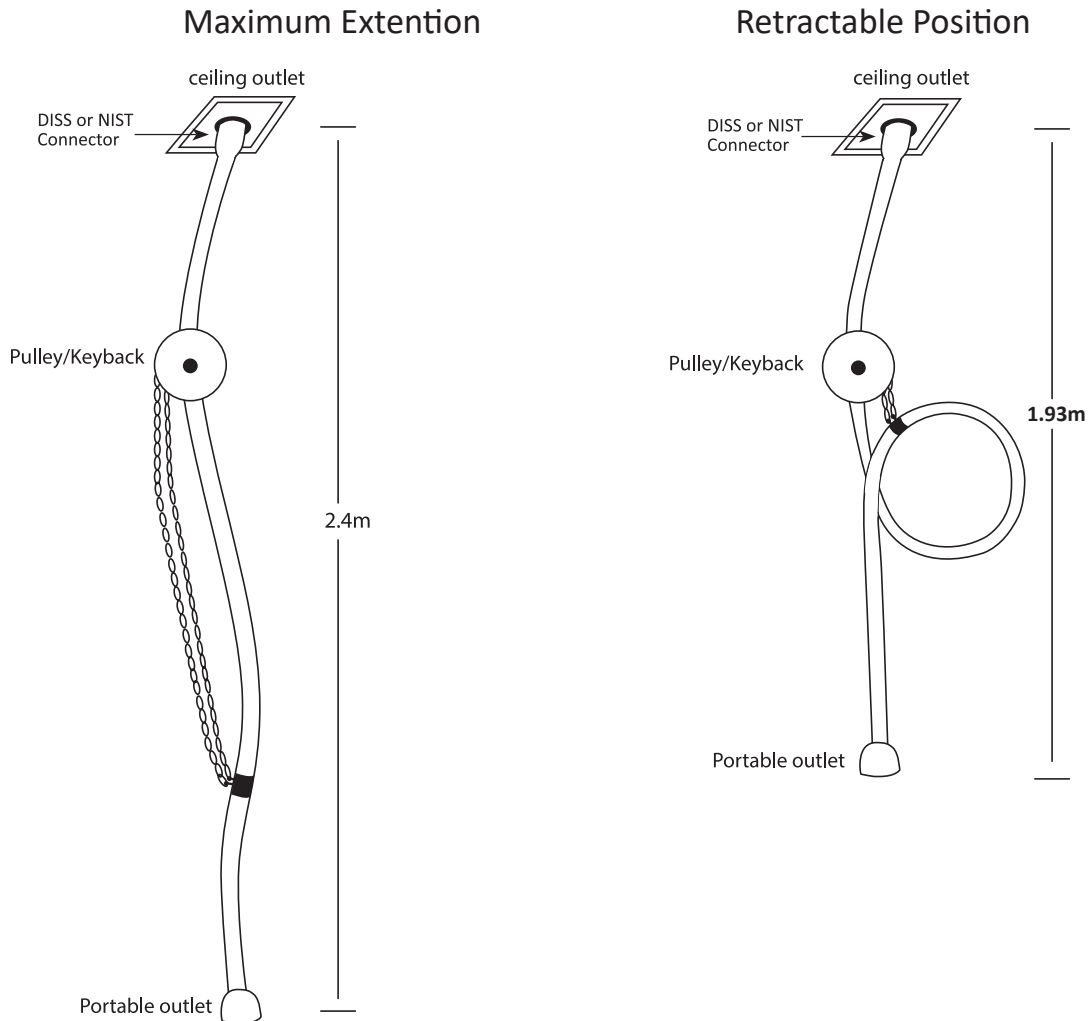

Technical Data

- Hose length:
 - maximum extension - 2.4 m
 - retractable position - 1.93 m
- Available for all medical gases: Oxygen, Vacuum, Medical Air, Nitrous-Oxide N₂ and CO₂.
- Portable gas outlets that can be attached to the hose are available in several standards including Din, ENV, Sil-Ohio, Puritan Bennet and British standard*.
- Retractable hoses works with a pulley (key back).
- Each medical gas outlet and hose has a gas coding to avoid inappropriate gas usage.

Dimensions [mm]

Order Manual

Gas Service	Color Code*	Portable Outlet Type**	Catalogue No.
Oxygen	Green	Sil-Ohio	3809016
Oxygen	White	BS	3809101
Medical Air	Yellow	Sil-Ohio	3811016
Medical Air	Black	BS	3809102
Nitrous-Oxide	Blue	Sil-Ohio	3810016
Vacuum	White	Sil-Ohio	3812016
N2	Black	Sil-Ohio	3861116
Co2	Gray	Sil-Ohio	3808016

* Colors per ISO7396 available as well

** Other portable outlets are available
