

Stainless-Steel Catheter Holder

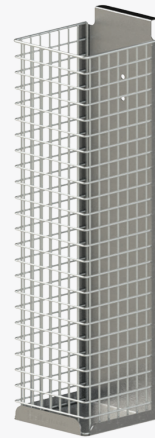

Catheters are long thin tubes which are used for an invasive medical procedure.

Silbermann's catheter holder is designed to hold these tubes in a manner that does not damage their integrity.

This stainless steel, rectangular-shaped holder is built with a standard hanging hook adapter for 8 or 10-mm hanging rails.

Dimensions: 100 × 100 × 400 mm.

Weight: 0.85 Kg.

Features & Benefits

- Safely holds large No. of catheter tubes without the need to bend or twist the tubes
- Provides easy & comfortable access to the tubes during treatment
- Imbedded hanging hook adapter for DIN or 8 mm hanging rails
- Ganging of two or three holders may be achieved by hanging one holder via its hooks
- Autoclavable in a steam/gas autoclave or can be disinfected with chemical liquid disinfectant

Technical Data

- The Catheter Holder shall be made of polished stainless-steel
- Dimensions: 100x100x400mm
- Weight: 0.85kg
